

# LIMITLESS SOLUTIONS

## CAPABILITY STATEMENT

We are an **Australian rope access and high rise construction company** specialising in difficult access and complex facade remediation projects.

Since 2017, Apex Facades has been a mainstay of Australia's construction and maintenance scene.

Operated in partnership by Mitchell Haskard and Andrew Gennings, Apex Facades has become renowned for exceptional service delivery in the fields of rope access, rigging and specialist construction.

Although new technological processes have entered the market in recent times, the flexibility of rope access simply cannot be surpassed.

# OUR MISSION

To provide our clients with clear and concise solutions that ensure projects are completed efficiently and safely, whilst maintaining the highest level of quality.

## CORE COMPETENCIES

### Experienced tradespeople

Trade qualified rope access technicians experienced in commercial and industrial projects.

### Quality components & materials

We only use tested and proven materials that are industry standard in their respective fields.

### Compliant installation

All employees are qualified tradespeople providing compliance for trade works and warranties on assets.

### Complete planning & management

Our project and operations managers ensure efficiency is maintained and projects are completed with minimal disruption.

### Safety management

We adhere to stringent safety standards and independently audit our safety systems.

### Peace of mind

Specialist high risk public liability, professional indemnity and workers compensation insurance.

## QUALITY

Apex Facades holds international certification in Quality (ISO 9001:2015), Safety (ISO 45001:2018), and Environmental (ISO 14001:2015) management. This integrated management system guarantees high quality service, high standards of safety, and minimal impact on the natural environment.

We are committed to implementing the ISO Integrated Management Systems for Quality, Safety, and Environment, to promote accountability and responsibility at senior management level, and through all levels of the company. We invest in our people through regular training and career progression, to achieve the best contribution and highest ethical behaviour from all employees.

# OUR TEAM

Apex Facades is made up of a diverse team of specialised rope access technicians committed to our company principles, operating Australia-wide with offices in Brisbane and Sydney.

## MANAGEMENT PROFILES

### National operations

**Mitchell Haskard** is co-director of Apex Facades and heads up the specialist construction and installation projects for the company. He has vast experience in commercial construction and installation in glass, glazing and aluminium, as well as signage, facade remediation and coatings.

**Andrew Gennings** is co-director of Apex Facades, overseeing specialist lifting and rigging operations for the company. He is dedicated to mitigating risk and improving efficiencies across technical rope access projects.

Our accounts are managed by **Terri Patti**, an experienced Account Manager with a demonstrated history of working in the building industry. Terri has strong skills in customer relationship management, communication, and sales, along with high customer service ethics.

### New South Wales operations

Operations Manager **Craig Downing** is a Level 3, IRATA qualified rope access technician with extensive experience working in the construction and maintenance industries. Craig has a vast knowledge across a variety of facade components. He is highly driven and prides himself on finding solutions to meet your every need.

**Craig Parmenter**, our NSW Project Manager provides strong support to operations. With thirteen years experience in the rope access industry all over the world, Craig has the expert knowledge to ensure projects are carried out while upholding the highest safety standards.

### Queensland operations

**Sam Davies** is a Level 3, IRATA qualified rope access technician. With a carpentry background and many years working in rope access, Sam is a dedicated team player, always striving to bring out the best in our rope access technicians, ensuring delivery of quality workmanship on your valued assets.

Our team has maintained three core values since inception. They are the baseline on which our business operates – for the security of our employees and clients.

### SAFETY

To ensure there is as little risk possible in all projects. Our priority is to ensure our high standards of safety are maintained at all times.

### EFFICIENCY

For the benefit of our clients, by engineering and pioneering new processes to reduce cost and time; and for our team to ensure they do not put themselves unnecessarily at risk.

### QUALITY

We promise all work undertaken by our team will be of the highest standard – guaranteed!
